

Professional Learning that supports you and your goals.

When professional learning is built around your district's goals, educators are ready — and every student benefits.

Your goals

Sessions built around what you're trying to accomplish, not generic PD delivered to a crowd.

Your context

A dedicated Educational Strategist who learns your district, your staff, and your instructional culture.

Your timeline

Proactive support at every stage: new partner, renewal, and expansion, with outcomes you can name.

All partnerships include a dedicated Customer Success Manager, a customized partnership plan, self serve certification and access to our community.

How sessions are delivered

Exclusive webinar

\$500 per 1-hour session

- ✓ Available to any school or district
- ✓ Highly scalable, no travel required
- ✓ Great for broad staff rollouts
- ✓ Idea for initial launch or topic deep-dives

In-person onsite

\$2,500 half day • \$4,750 full day

- ✓ Ideal for immersive, hands-on workshops
- ✓ Best for leadership alignment and culture work
- ✓ Stronger engagement and relationship-building
- ✓ Highest impact for district-wide change goals

Package tiers

Foundation

\$7,000 / save \$500

3 Sessions 9 hours

- Best for new partners launching SchoolAI
- 100-level sessions only
- Launch with confidence
- Builds baseline AI fluency for staff

Instructional

\$13,500 / save \$1500

6 Sessions 18 hours

- Best for Year 1+ partners going deeper
- 100 + 200-level sessions
- Improve daily teaching practice
- Stronger curriculum integration

Premier

\$18,000 / save \$2000

8 Sessions 24 hours

- Best for Scale + renewal partnerships
- Full journey: 100 + 200 + 300-level
- Embed SchoolAI across the organization
- Highest adoption and renewal outcomes

Professional Learning Services **Session Catalog**

Every session is led with a practitioner-led, tool-embedded, and designed so participants leave with something ready to use the very next day.

100

100-level

Building access, confidence, & first practices

Make room for what matters

All Audiences

Educators discover how Dot, ready-made Tools, and the Browser Extension can move them through planning, communication, and prep faster, so their energy goes toward connecting with the students in front of them.

Build your first Space

Teacher course

Teachers build and launch their first SchoolAI Space, learning how to design safe, purposeful AI-powered student learning experiences that are ready to use in any subject or grade by the end of the session.

SchoolAI for [your subject]

Teacher course

Content-area teachers explore how SchoolAI's features apply directly to their discipline, with examples, prompts, and practice tasks tailored to their subject and grade band.

SchoolAI for Leaders

Administrator / Coach course

Administrators and coaches get a practical orientation to SchoolAI's full platform — learning how Spaces work, what Mission Control reveals about learning, and how to support and evaluate AI-powered instruction across their school or district.

Custom 100-level option

A tailored introductory experience designed around your district's specific entry point, rollout priorities, or SchoolAI implementation goals.

200

200-level

Deepening practice & pedagogical integration

Teach with Mission Control

Teacher course

Teachers learn to use Mission Control data to understand student progress at a glance and make real-time instructional decisions — adjusting pacing, targeting support, and responding to patterns — that move learning forward.

Feedback that moves learning

Teacher course

Educators design SchoolAI-powered feedback workflows — through Spaces, Everyday Spaces, and conversation design — that give students actionable, timely responses to their thinking in the flow of instruction.

Spaces that challenge thinking

Teacher course

Teachers go deeper with Space Designer, exploring advanced PowerUps and conversation scaffolds that push students toward analysis, synthesis, and application.

Prompt like a pro

All Audiences

Educators and leaders build prompting fluency — learning to write cleaner, smarter, more purposeful instructions that consistently produce better AI responses across any SchoolAI context, from student Spaces to educator tools.

Custom 200-level option

A focused deep-dive into the SchoolAI workflows most aligned to your educators' current practice, instructional priorities, and greatest opportunities for growth.

300

300-level

Systems, capacity, & sustainable implementation

Plan your AI rollout

Administrator / Coach course

School and district leaders build a structured, phased AI implementation plan that aligns SchoolAI adoption with instructional priorities, existing initiatives, and their community's current readiness and long-term vision.

Grow your AI champions

Administrator / Coach course

Leaders and coaches design a sustainable internal capacity-building model — identifying champions, creating peer learning structures, and establishing shared norms for AI use that reduce reliance on external PD over time.

Systems that stick

Administrator / Coach course

Instructional leaders build the operational infrastructure for lasting SchoolAI integration: shared Space libraries, collaborative data review protocols, and department-level consistency practices that outlast any single PD event.

Make school awesome

Administrator / Coach course

Leaders use SchoolAI to amplify their vision for what school can be, building a culture where great teaching gets stronger and human moments get more room to happen.

Custom 300-level option

A co-designed leadership experience built around your organization's strategic AI goals, current implementation stage, and long-term vision for what SchoolAI makes possible.
